SAMEE ULLAH

Peshawar, Pakistan | sameullah694@gmail.com | +92 315 9924831 | linkedin.com/in/samee-ullah-533385373

SUMMARY

Software Engineering student (6th semester) with hands-on experience in HTML, CSS, JavaScript, and React, currently developing full-stack skills through MERN Stack development. Familiar with DevOps fundamentals including Linux, Bash scripting, and basic automation. Seeking a front-end or full-stack development internship or entry-level role to apply web development, problem-solving, and software engineering skills to real-world projects.

EDUCATION

BS (Hons) Software Engineering — CECOS University | 2023 – 2027 (Expected)

- Relevant coursework: Web Development, Data Structures and Algorithms, Software Engineering Principles
- CGPA: 3.07/4.0

PROJECTS

PakTruck — Virtual Truck Adda App | Zindagi Prize Winner

- Worked in a team on an app that converts physical truck addas into virtual ones, moving the adda's work online.
- Won the Zindagi Prize competition with this idea.

Skin Hub — Clinic Discovery and Booking Platform | skin-hub-beta.vercel.app

Next.js · Cloudinary · Vercel

- Built a platform where patients compare approved skin and aesthetic clinics across 11 Pakistani cities, browse by treatment, and send booking requests online.
- Designed separate sign-up paths for patients and clinics, with clinics listed only after a document check.
- Created clinic pages showing doctors, open times, and starting prices in PKR, plus a saved-clinics shortlist and a deals page.
- Added light and dark themes, and served images through Cloudinary and Next.js image optimization.
- Wrote the privacy, terms, and medical-disclaimer pages and deployed the site on Vercel.

KCD Dental Clinic Website | kcd-dental-clinic-a5rw.vercel.app

Next.js · Vercel

- Built a bilingual (English and Urdu) website for a dental clinic in Peshawar, with Home, Services, About, Gallery, and Contact pages.
- Added an online appointment booking form, plus WhatsApp chat and click-to-call buttons for quick contact.
- Presented services such as checkups, fillings, root canal, braces, implants, and kids' dentistry, along with clinic hours and an FAQ section.
- Set up page titles, descriptions, and social-share preview images for search and sharing.
